

Arbor Myrtle - Maple

Highlights and lowlights combine to give this finish a warm glow.

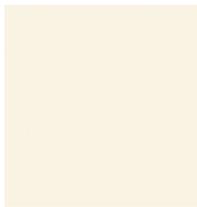

Arbor Myrtle - Melamine

The reddish-brown Arbor Myrtle brings the look of wood to your melamine cabinets.

Bisque - 3DL (Traditional)

Warmer than white, bisque provides the ultimate in neutrality.

Bisque - Melamine

The always neutral, never goes out of style, simplicity of Bisque.

Bisque - Veneer

Warmer than white, bisque provides the ultimate in neutrality.

Bordeaux - Maple

Subtle red highlights enhance the deep brown finish of bordeaux.

Bordeaux - Oak

The rich bordeaux is infused with warm red undertones.

Chocolate Pear - Melamine

Milk and chocolate brown intertwine to make Chocolate Pear a luscious finish with the look of wood.

Dark Cherry - 3DL (Traditional)

This warm, reddish-brown finish provides a feel of cozy sophistication.

Espresso - Maple

A finish so dark, you can almost smell the coffee beans.

Espresso - Oak

Espresso is as dark, rich and luxurious as its name implies.

Hazelnut - 3DL (Traditional and European)

Rustic with a modern edge, this neutral wood-grain look can be dressed up or down with the right accessories.

Hazelnut - Melamine

This golden color with a wood grain look will brighten up any decor.

Honey - Oak

Honey provides a golden touch of color that enhances without overpowering.

Java - 3DL (Traditional and European)

Drink in the rich, dark brown of Java, accented with light grain ticking.

Light Cherry - 3DL (Traditional)

Warmer than natural maple, light cherry provides a subtle accent to any color scheme.

Light Cherry - Maple

Pair this neutral finish with dark or light countertops for two dramatically different looks.

Maple Espresso - Melamine

A rich, dark finish with the easy care of melamine.

Natural - Maple

Our natural maple finish accents the beauty, character, and variations of the wood.

Natural - Oak

This natural oak finish highlights the beauty, character and natural grain of oak.

Natural Maple - 3DL (Traditional)

Give the kitchen a light and airy feel with this natural looking finish.

Natural Oak - 3DL (Traditional)

Pair this natural finish with white accents and bring the country home to the city.

Nutmeg - Maple

Make any room more inviting with the warm brown of nutmeg.

Nutmeg - Oak

Nutmeg is a reddish-brown beauty that will warm up any room.

Spice - 3DL (Traditional)

Spice gives the look of beautiful wood grain with just a hint of warm red.

Spice - Maple

Spice adds subtle golden-red undertones to enhance the beauty of maple.

Spice - Oak

Spice adds a hint of red while still letting the natural oak grain show.

Toffee - Maple

Toffee offers a natural looking finish with a hint of golden brown.

Toffee - Oak

Toffee is a neutral brown that can be dressed up or down.

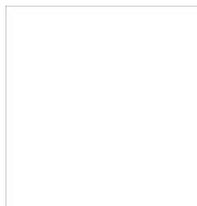

Walnut - Maple

A dark brown stain with a hint of texture, walnut brings a dramatic flare to a kitchen or bath.

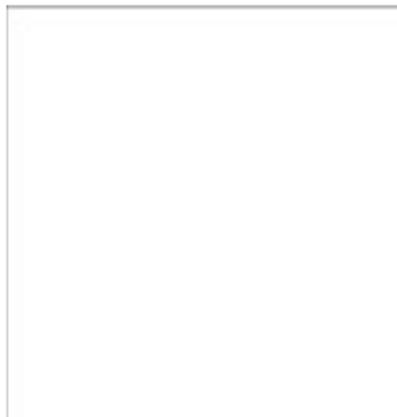

Walnut - Oak

The rich chocolate brown of walnut brings out the texture in oak.

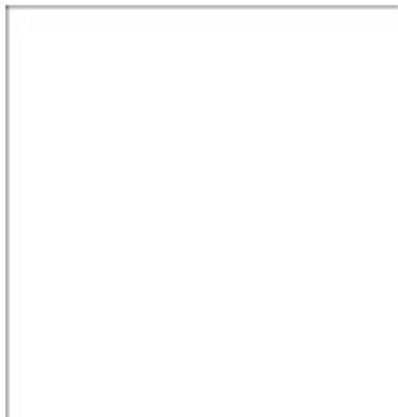

White - 3DL (Traditional)

Clean, simple and classic with a slightly textured feel.

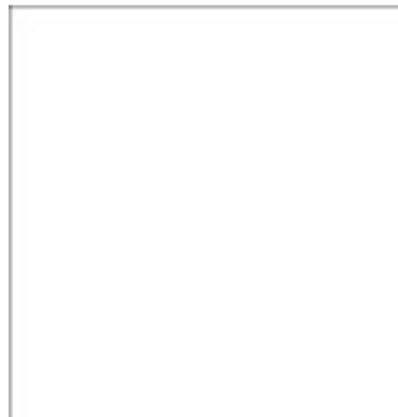

White - Melamine

Classic white in easy-to-clean melamine.

White - Veneer

This is a clean, simple and classic white for veneer cabinet features.

White Gloss - 3DL (Traditional)

Make any kitchen sparkle with this bright white finish with a glossy sheen.

Wood Grain White - 3DL (Traditional)

This bright white with a wood grain texture gives you the best of both worlds.

With our PRIME Finishing System and more than 30 available colors, Leedo offers a finish for every decor. Leedo cabinetry features environmentally sensitive water-borne stains and UV cured clear coats. All Leedo finishes feature an industry leading 3-year adhesion warranty against flaking, peeling or chipping.

PRIME Finishing System

Progressive

Progressive thinking drives us to bring the latest technology and style to our customers at the lowest possible cost. In addition to our standard color offerings, Leedo is eager to offer customers a customized color or finishing technique to make projects successful and stand out in the marketplace.

Resilient

Our brilliant and durable finishes will provide years of enjoyment under normal use. Quality is built into our products by controlling and monitoring every step of the finishing process through a multi-point Quality Inspection Program. Our stringent manufacturing process ensures that characteristics of color consistency, sheen, clarity, adhesion, hardness, smoothness and resistance to discoloration exceed industry KCMA requirements.

Innovative

Innovation allows us to convert the art of finishing into a precise science and produce consistent, successful results, from day to day and month to month. Every year we invest money and engineering resources to improve our finishing technology so that we can provide the highest quality and most consistent looking finish available in the marketplace.

Multi-Faceted

Leedo utilizes an exclusive 17-step finish process for all finished wood doors, drawer fronts and face frames. This multi-step process begins with the material purchasing specifications and continues all the way through the final quality inspection to produce a sterling finish appearance.

Eco-Friendly

Because our product comes from natural resources, Leedo is sensitive to the impact of our processes on the environment and is committed to achieving the smallest carbon footprint that we possibly can. Our infrared and ultraviolet curing system is state of the art and utilizes the most energy efficient, green technology on the market. We recycle our waste and have lowered our VOC emissions by an average of 15% annually over the last six years.
